Description:

Urinary Incontinence market information, by types (Urge incontinence, Stress Incontinence, Overflow incontinence, Functional incontinence) by devices (Electrical Stimulation Devices, Foley Catheters, Antimicrobial Foley Catheters, Urethral Bulking Agents) - Forecast to 2022

Market Synopsis of Urinary Incontinence Market:

Market Scenario:

Urinary Incontinence (UI) is a medical condition in which a person urinates unconsciously. It can also be called as a leakage of urine without being conscious about it. There are certain types of UI such as Stress incontinence (leakage of urine due to pressure on bladder by sneezing, coughing, etc.), Urge incontinence (Strong urge of urination which leads to unconscious loss of urine), Overflow incontinence (constant dripping of urine due to the bladder which doesn’t get empty totally) and Mixed incontinence (patient suffering from more than one type of urinary incontinence). Depending on these types of incontinence, physicians prescribe specific treatments.

Globally the market for Urinary Incontinence is growing steadily and has a bright future. Globally the market for Urinary Incontinence is expected to grow at the rate of about 3% to 4% from 2016 to 2022.

Study objectives of Urinary Incontinence Market:

- To provide detail analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Urinary Incontinence market
- To provide insights about factors affecting the market growth
- To analyze the market based on various factors-price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries-Americas, Europe, Asia-Pacific, and Middle East & Africa.
- To provide country level analysis of the market with respect to current market size and future prospective
- To provide country level analysis of the market for segments by type, by devices and its sub-segments.
- To provide overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global Urinary Incontinence market.

Urinary Incontinence Market, by Region
Key Finding

- The global market for Urinary Incontinence is expected to reach $27,775.9 million by 2022.
- Stress Incontinence segment holds the largest share in the global market.
- North America holds the largest market share in terms of geographies for Urinary Incontinence market.
- Globally, Europe and Asia-Pacific are expected to be fastest growing regions which are expected to grow in a range of 4% to 5% respectively.

Key Players for Urinary Incontinence Market:

Some of the key players in this market are: NeoTract, Inc, Promedon, Cook Medical Inc., C.R. Bard Inc., Coloplast Corp, Boston Scientific Corporation, Ethicon US, LLC and others.

Segments:

Urinary Incontinence market has been segmented on the basis of types which comprises Urge incontinence, Stress incontinence, Overflow incontinence, Functional incontinence and others. On the basis of devices the market is segmented into Electrical Stimulation Devices, Foley Catheters, Antimicrobial Foley Catheters, Urethral Bulking Agents and others.

Regional Analysis of Urinary Incontinence Market:

Globally Americas is the largest market for Urinary Incontinence. Where in countries like US and Canada play an important role in the growth of the market. Europe is expected to be the second-largest market which is expected to grow at a CAGR of ~4% by the end of the forecasted period 2016-2022. Furthermore Asia pacific market is expected to be the fastest growing market for Urinary Incontinence.

The report for Urinary Incontinence market of Market Research Future comprises extensive primary research along with the detail analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different markets segments and regions.

Intended Audience

- Urinary Incontinence service providers
- Urinary Incontinence device manufacturers
- Research and Development (R&D) Companies
- Government Research Laboratories
- Government and Independent Regulatory Authorities
