Description:

Global Commercial Aircraft Cabin Interior Market by Product Types (Seating, Lighting, Windows & Windshield, Galley, and Lavatory), by Aircraft Types (Wide body and Narrow body), by Fit (Line Fit and Retro Fit), and by Geography - Forecast To 2021

Market Synopsis of Commercial Aircraft Cabin Interior Market

The global Commercial Aircraft Cabin Interior Market is expected to grow at a CAGR of around 11% during 2016-2021.

Global Commercial Aircraft Cabin Interior Market ($ billion), 2016-2021

As per the MRFR analysis, growing fleet size, increased passenger traffic, investment in cabin interior products, passenger comfort, demand for light weight and fuel efficient aircraft are driving the market growth. Whereas, technological shift and complexity in retrofitting aircraft interiors are the key challenges of the market.

Study Objectives of Commercial Aircraft Cabin Interior Market
To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Global Commercial Aircraft Cabin Interior Market

To provide insights about factors affecting the market growth

To analyse the Commercial Aircraft Cabin Interior Market based on various factors - price analysis, supply chain analysis, porter’s five force analysis etc.

To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries - North America, Europe, Asia, and Rest of the World (ROW)

To provide country-level analysis of the market with respect to the current market size and future prospective

To provide country-level analysis of the market for segment by types and applications

To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market

To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Commercial Aircraft Cabin Interior Market

Key Findings

- APAC market was valued at $XX billion in 2015, and is expected to reach $XX billion by 2021, growing at a CAGR of around 10%

- In-flight entertainment systems, seating, and cabin lighting account around 70% of the market size

- Wide body will dominate the market, but over the forecast period narrow body will outpace the segment in terms of growth and investment in cabin interior product
Key Players

Market Segmentation of Commercial Aircraft Cabin Interior Market

Regional and Country Analysis of Commercial Aircraft Cabin Interior Market

In 2015, there were around 22,000 aircraft in service, majority of them from North America. This figure is likely to double in the next 20 years to reach around 40,000 aircraft. Improved affordability and accessibility will stimulate demand for air travel in established markets and meet the emerging travel needs of the growing middle-class population in the region.

The reports also cover country level analysis:

- **Americas (North & Latin)**
  - US
  - Canada
  - Brazil
  - Others
- **Europe**
  - Germany
  - France
  - Italy
  - Spain
The market report for Commercial Aircraft Cabin Interior Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
