Global Facial Injectable Market Information, by Types (Botulinum Toxin, Hyaluronic Acid, polymers & Particles, and Collagen) by Application (Facial Line Correction Treatment, Face-Lift, Lip Treatments and others) - Forecast to 2021

Market Synopsis of Facial Injectable Market:

Market Scenario:

Facial Injectable or also known as dermal fillers are products which help in a trending application known as bio-engineering or facial rejuvenation. As humans age the facial skin is bound to lose subcutaneous fat naturally, the skin is lured closer to the facial working muscles hence smile lines and wrinkles over the face become more visible. The global market for facial injectable is expected to reach USD 9.04 billion by the end of the forecasted period and is expected to grow at a CAGR of 13.2%

Study Objectives of Facial Injectable Market:

- To provide detailed analysis of the market structure along with forecast for the next 6 years of the various segments and sub-segments of the facial injectable market
- To provide insights about factors affecting the market growth
- To analyze the Facial Injectable market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific, and Middle East & Africa.
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by type, by application and its sub-segments
- To provide overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global facial injectable market.

Intended Audience

- Facial Injectable manufacturers
- Facial Injectable Suppliers
- Pharmaceutical companies
- Research and Development (R&D) Companies
- Medical Research Laboratories
- Academic Medical Institutes and Universities

Key Findings

- The facial Injectable global market and is expected
to reach USD 9.04 billion by 2021.
- Botulinum Toxin holds the largest share of the market.
- North America holds the largest market share of facial injectable market and is anticipated to reach USD 3.42 billion by the end of forecast period.
- Globally, Asia-Pacific the fastest growing region and expected to grow at the CAGR of 13.6% during the forecast period.

Segments:
Global Facial Injectable market has been segmented on the basis of types which comprises of botulinum toxin, hyaluronic acid, polymers & particles, and collagen. Polymers and particles are further divided into calcium hydroxylapatite, poly-l-lactic acid, and polymethylmethacrylate. On the basis of application which consists of Facial Line Correction Treatment, Face-Lift, Lip Treatments, and others.
