Description:

Global Intrusion Detection System Market Information, by Components (Hardware, Software), by Deployment (Cloud based, Infrastructure based), by End Users (BFSI, IT & Communication, Aerospace & Defense, Software Industry, Manufacturing) - Forecast 2016-2022

Study Objective of Intrusion Detection System Market

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Intrusion Detection System Market
- To provide insights about factors affecting the market growth
- To analyze the Intrusion Detection System market based on various factors - value chain analysis, porter’s five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries - North America, Europe, Asia, and Rest of the World (ROW)
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by deployment, by components, by end users and sub-segments
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Intrusion Detection System Market

Market Synopsis of Intrusion Detection System Market

Market Scenario

IDS or Intrusion Detection System is a technology which can be deployed as a device or a software to monitor the network activity and system of an organization. This activity includes monitoring the malicious activity, policy violations, unauthorized access to the system among others. As the security proliferation in the organizations are increasing, the market of IDS is also increasing. Global IDS market has been valued at US $XX billion in the year 2015 which is growing with the CAGR of XX% and expected to reach market size of US$ XX billion by the end of forecasted period. Security loopholes and weak IT infrastructure in the organization are some major factor which is giving fuel to the market of IDS.

Market Segmentation

Segmentation by Deployment: Cloud based and Infrastructure based.

Segmentation by Components: Hardware & Software.

Regional Analysis

North America accounted for largest market share in the year 2015 which has been valued at US $XX billion. Technological advancement and advantage of existence of global players in this region are some key factor which is supporting the market of IDS in North America. Asia-Pacific and Europe market has been growing rapidly as the economies of countries in this region is under developing phase. Europe IDS market has been valued at US $XX billion in the year 2015 which is expected to grow at US $XX billion by the end of forecasted period where Asia-Pacific holds XX% of market share which is expected to grow at US $XX billion by the end of forecasted period from US $XX billion in the year 2015.

Key players

The key players in this market are- McAfee (California), Check point (Israel), Corero (Massachusetts), Dell (U.S.), IBM (U.S.), Cisco (U.S.), Extreme Networks (U.S.), Symantec (U.S.), Metaflows, Inc. (U.S.), Hewlett-Packard (U.S.) among others.

Industry News

- In August 2016, Symantec Corp announced the acquisition of Blue Coat a leading provider of web securities for the expansion of future cyber security system.
- In July 2016, Symantec Corp announced the partnership with SSL Store for quick encryption of websites.

Target Audience

- SMEs
- Cloud Security Providers
- Infrastructure Security Providers
- Security System Providers
- Cloud Service Providers

The report for Global Intrusion Detection System Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
