Global Green Building Materials Market Research Report - Forecast to 2022

Report / Search Code: MRFR/CO/1333-HCRR Publish Date: May, 2019

Description:

Global Green Building Materials Market Information by Application (Residential, Commercial, Infrastructure, Industrial) by End-use (Exterior siding, Interior Finishing, Insulation, Framing, Roofing and others) and Region - Forecast to 2022

Market Scenario
The key drivers for the growth of the green building materials market are increasing consumer awareness regarding energy efficiency and government supportive policies. The green building material market is augmented due to its features such as low maintenance cost, low operating cost and low water requirements. The green building materials are widely used in health care, residential, commercial and infrastructure industries. Health care industry by application contributes highest to the overall growth of the market. Insulation and roofing segment by end-use contributes largely to the market. North-America contributes highest to the market, majorly due to increasing consumer awareness regarding environmental and economic benefits. The global green building materials market size was valued at around USD 158 Billion in 2015 and is expected to cross USD 245 Billion at CAGR of 17% by 2022.

Market Size of Green Building Materials by Regions (USD Million)

Study Objectives of Global Green Building Materials Market
- To provide detailed analysis of the market structure along with forecast for the next 6 years of various segments and sub-segments of the Global Green Building Materials Market
- To provide insights about factors affecting the market growth
- To Analyze the Global Green Building Materials Market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main...
geographies and their countries: North America, Europe, APAC, and Rest of the World (ROW)

- To provide country-level analysis of the market with respect to the current market size and future prospective
- To provide country-level analysis of the market for segment by Application, End-use and by Region.
- To provide strategic profiling of the key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Green Building Materials Market

Segmentation

Regional Analysis of Global Green Building Materials Market
North-America is the largest market for green building materials, followed by Asia-Pacific. The reason is attributed to the growing need of energy saving construction buildings, government & non-government regulations for energy efficiency practices and increasing consumer awareness regarding environmental & economic benefits. Asia-Pacific is expected to expand fastest over the forecasted period.

Key Players

Target Audience
- Manufactures
- Raw Materials Suppliers
- Aftermarket supplier
- Research Institute / Education Institute
- Potential Investors
- Key executive (CEO and COO) and strategy growth manager

Product Analysis
- Product matrix which gives a detailed comparison of the market for different recycled product types

Additional Information
- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

Geographic Analysis
The report for **Global Green Building Materials Market** of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

**Contents:**

1 **Executive Summary**
2 **Scope Of The Report**
   2.1 Market Definition
   2.2 Scope Of The Study
   2.2.1 Research Objectives
   2.2.2 Assumptions & Limitations
   2.3 Markets Structure
3 **Market Research Methodology**
   3.1 Research Process
   3.2 Secondary Research
   3.3 Primary Research
   3.4 Forecast Model
4 **Market Landscape**
   4.1 Five Forces Analysis
   4.1.1 Threat Of New Entrants
   4.1.2 Bargaining power of buyers
   4.1.3 Threat of substitutes
   4.1.4 Segment rivalry
   4.2 Value Chain of Global Green Building Materials Market
5 **Industry Overview of Global Green Building Materials Market**
   5.1 Introduction
   5.2 Growth Drivers
   5.3 Impact analysis
   5.4 Market Challenges
   5.5 Impact analysis
6 **Market Trends**
   6.1 Introduction
   6.2 Growth Trends
   6.3 Impact analysis
7 **Global Green Building Materials Market by Region**
8 **Global Green Building Materials Market by Application**
9 **Global Green Building Materials Market by End-Use**
10 **Company Profiles**
10.9 Forbo International SA
10.9.1 Overview
10.9.2 Financials
10.9.3 Product Portfolio
10.9.4 Business Strategies
10.9.5 Recent Development
10.10 BASF SE
10.10.1 Overview
10.10.2 Financials
10.10.3 Product Portfolio
10.10.4 Business Strategies
10.10.5 Recent Development

11 Conclusion
