Description:

Medical Imaging market information, by modality (ultrasound, computed tomography, x-ray, radiography, MRI, nuclear imaging and others), by end users (hospital/clinics, diagnostic centers, laboratories, and others) - Forecast to 2022

Study objectives of Medical Imaging Market:

- Providing detail analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the medical imaging market
- Providing insight about factors affecting the market growth
- Analyzing the medical imaging market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- Providing historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific, and Middle East & Africa.
- Offering country level analysis of the market with respect to the current market size and future prospective
- Offering country level analysis of the market by segments which includes by modality, by end user and its sub-segments.
- To provide overview of key players of the market and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape of the market.
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers & acquisitions, new product developments, and latest research & developments in the global medical imaging market.
- Medical Imaging Market, by Region
Medical Imaging Market, by Region

Market Synopsis of Medical Imaging Market:

Market Scenario:

Medical Imaging techniques have become one of the most important aspect of diagnosing any disease. There has been rise in chronic diseases. Use of the medical diagnostic imaging has increased the accuracy and precision of diagnosis tremendously. Globally the market for medical imaging is increasing rapidly and the market is expected to grow at the rate of XX% from 2016 to 2022.

Key Finding

- The medical imaging global market is expected to reach USD XX billion by 2022.
- Ultrasound segment holds the largest share of
XX% of the market.

- North America holds the largest market share of XX% of medical Imaging market and is expected to reach USD XX billion by the end of 2022

- Globally, Asia-Pacific is the fastest growing region and is expected to grow at the rate of XX% from 2016 to 2022

Segments:

Medical Imaging Market has been segmented on the basis of modality which includes ultrasound, computed tomography, x-ray, radiography, MRI, nuclear imaging, tactile imaging, echocardiography, thermography and others.

On the basis of end user, market is segmented into hospital/clinics, diagnostic centers, laboratories, and more.

Regional Analysis of Medical Imaging Market:

Globally North America is the largest market for Medical Imaging. Europe is the second-largest market. Asia pacific market is expected to be the fastest growing market for Medical Imaging.

Key Players for Medical Imaging Market:

The Market Research Future's report on medical imaging market includes extensive primary research along with detail analysis of qualitative as well as quantitative aspects of the same by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report also gives a clear picture of the current market scenario which includes historical and projected market size in terms of value & volume, technological advancement, macro economical & governing factors in the market. The report provides detail information and strategies of top key players of the industry. The report also gives detail information about different markets segments and regions.
