Global Digital Camera Market, By Product Type (DSLR, Bridge Camera, Compact Digital Camera, Digital Range Finders, Built-In Lens, Non-Reflex), By Digital Sensor Types (CCD sensor, CMOS sensor, FOVEON X3 sensor, LiveMOS sensor), By Components (Lenses, Sensors, LCD Screen, Memory Card, others) - Forecast 2022

Market Synopsis of Digital Camera Market:

Market Scenario:

Digital camera produce digital image records cinematic image in digital appearance. Dissimilar to film photographs which relatively have enormous resolution, digital camera accumulate images digitally in a memory chip which is an alternative to recording them on the film. Once the photograph is taken it can be initialized to a computer system displayed on the screen and printed. Digital cameras share optical structure, commonly using lens with a fluctuating diaphragm to spotlight on to an image pickup device. Many current devices are adequate to grab sound or video further to still images. The major influence of digital camera is that making photos economical and quick being there is no film processing. The biggest producer of the film Kodak refined photoCD format which has come to be de facto barometer for accumulating digital photograph.

The global digital cameras market is presently formed by range of radical trends connected to lenses, photo accessories and other key features. The global market for digital cameras is anticipated to testify robust advancement ahead along with technological developments like touch screen and high definition (HD) quality cameras. The acceptance of digital single lens reflex cameras is additional the reason for overall market to speedily gain grip compared to analogous markets. It is likely that digital SLR cameras market will enormously grow due to growing inclination of individual towards photography. The factors such as collapsing prices, and intense competition among industry giants acts as a major restraining factors for the digital camera market.

The makers of digital cameras have a major challenge as sale of smartphone is continue to boom and frame digital camera market particularly fixed lens digital cameras. The shortfall of innovation has meant that customers are no longer inspired to buy new models. Makers are looking out for the next big thing in digital cameras, despite the market for digital camera is abstained. The global digital camera market is predicted to reach ~5.1 billion by the year of 2022 and it is growing at CAGR of 7.1% between the years 2016 to 2022.

Global Digital camera market
Study Objectives of Global Business intelligence market:

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the global digital camera market.
- To provide insights about factors affecting the market growth.
- To analyze the global business intelligence market based on Porter’s five forces analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries—North America, Europe, Asia, and Rest of the World (ROW).
- To provide country level analysis of the market with respect to the current market size and future prospective.
- To provide country level analysis of the market for segment by product type, digital sensor type, component, and end-user.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market.
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global digital camera market.

Key Players
The prominent players in the market of Digital Camera market are – Eastman Kodak company (U.S.), koninklijke Philips N.V (Netherlands), Pentax corporation (Japan), Samsung group (South Korea), Panasonic corporation. (JAPAN), OLYMPUS Corporation (Japan), Fujifilm Holdings Corporation (Japan), SONY Corporation. (Japan), Nikon Corporation (Japan), Canon Inc. (Japan) and among others.

Segments:
The Global Digital camera market has been segmented on the basis of product type, digital sensor type, application, components and geography. The product types of the digital camera market is segmented is on digital single lens reflex (DSLR), bridge camera, compact digital cameras, digital rangefinders, built-in lens, non-reflex. By digital sensor types market is segmented into CCD sensor, CMOS sensor, Foveon X3 sensor, LiveMOS sensor. On the basis of components digital camera markets segmented in lenses, sensors, LCD screen, memory card and among others. Whereas, on the basis of application it is further classified as residential and commercial and on the basis of geography it has been segmented in North America, Europe, Asia pacific, and rest of the world.
Regional Analysis

Makers of digital camera in countries such as India, China awaits to take hold of the money making growth and countries like United States and European market testify mature conditions. North America had been dominant market in recent years. In the global digital camera market Europe, and the United states are foreseen to steal the honor from the other markets of the world. With the broadening abundance of customers in Asia pacific, the market is presaged to have overkill demand for DSLR cameras, so that contribute to the comprehensive growth of the international market. Asia Pacific is the largest market for the digital cameras and also predicted to continue to grip the market. The Latin American market is also predicted to become strong in coming years as the demand of the consumer is high for interchangeable lens and build in lens cameras.

Intended Audience

- Component manufacturer
- Camera manufacturer
- Battery manufacturer
- System integrators
- Sensors manufacturer

Contents:

1 MARKET INTRODUCTION
   1.1 INTRODUCTION
   1.2 SCOPE OF STUDY
      1.2.1 RESEARCH OBJECTIVE
      1.2.2 ASSUMPTIONS
      1.2.3 LIMITATIONS
   1.3 MARKET STRUCTURE

2 RESEARCH METHODOLOGY
   2.1 RESEARCH NETWORK SOLUTION
   2.2 PRIMARY RESEARCH
   2.3 SECONDARY RESEARCH
   2.4 FORECAST MODEL
      2.4.1 MARKET DATA COLLECTION, ANALYSIS & FORECAST
      2.4.2 MARKET SIZE ESTIMATION

3 MARKET DYNAMICS
   3.1 INTRODUCTION
   3.2 MARKET DRIVERS
   3.3 MARKET CHALLENGES
   3.4 MARKET OPPORTUNITIES
   3.5 MARKET RESTRAINTS

4 EXECUTIVE SUMMARY

5 MARKET FACTOR ANALYSIS
   5.1 PORTER’S FIVE FORCES ANALYSIS
   5.2 SUPPLY CHAIN ANALYSIS

6 GLOBAL DIGITAL CAMERA MARKET, BY SEGMENTS
   6.1 INTRODUCTION
   6.2 MARKET STATISTICS
      6.2.1 BY PRODUCT TYPES
         6.2.1.1 DSLR CAMERA
6.2.1.2 BRIDGE CAMERA
6.2.1.3 COMPACT DIGITAL CAMERA
6.2.1.4 DIGITAL RANGE FINDERS
6.2.1.5 COMPACT DIGITAL CAMERA
6.2.2 BY DIGITAL SENSORS TYPE
6.2.2.1 CCD SENSOR
6.2.2.2 CMOS SENSOR
6.2.2.3 FOVEON X3 SENSORS
6.2.2.4 LIVEMOS SENSOR
6.2.3 BY COMPONENTS
6.2.3.1 LENSES
6.2.3.2 SENSORS
6.2.3.3 LCD SCREEN
6.2.3.4 MEMORY CARD
6.2.3.5 OTHERS
6.2.4 BY APPLICATION
6.2.4.1 RESIDENTIAL
6.2.4.2 COMMERCIAL
6.2.4.3 APAC
6.2.4.4 REST OF THE WORLD
6.2.5 BY GEOGRAPHY
6.2.5.1 NORTH AMERICA
6.2.5.2 EUROPE
6.2.5.3 APAC
6.2.5.4 REST OF THE WORLD

7 COMPETITIVE ANALYSIS
7.1 MARKET SHARE ANALYSIS
7.2 COMPANY PROFILES
7.2.1 EASTMAN KODAK COMPANY (U.S)
7.2.2 KONINKLIJKE PHILIPS N.V (NETHERLANDS),
7.2.3 PENTAX CORPORATION (JAPAN)
7.2.4 SAMSUNG GROUP (SOUTH KOREA)
7.2.5 PANASONIC CORPORATION (JAPAN)
7.2.6 OLYMPUS CORPORATION (JAPAN)
7.2.7 FUJIFILM HOLDINGS CORPORATION (JAPAN)
7.2.8 SONY CORPORATION (JAPAN),
7.2.9 NIKON CORPORATION (JAPAN),
7.2.10 CANON INC. (JAPAN)
7.2.11 OTHERS
