Healthcare Biometrics Market Research Report - Global Forecast to 2022

Description:
Healthcare Biometrics Market Information, by technology (face recognition, fingerprint recognition, vein recognition, behavioral recognition, iris recognition, palm geometry recognition and others), by application (patient identification, patient monitoring, medical record management, data security, and others) by end user (Hospitals, research laboratories, healthcare institutes, and others) - Forecast to 2022

Market Synopsis of Healthcare Biometrics Market:

Market Scenario:
Globally the market for Healthcare Biometrics is increasing rapidly. A Biometric device is a security identification and authentication device. Healthcare Biometrics devices are used to capture the biometric data inputs like fingerprints, face recognition etc. These devices are useful in identification and monitoring the patients and it maintains all medical records. Data security is of the important issue nowadays, these biometrics devices are safe and secure which helps to maintain privacy as well as security of the data. Global healthcare biometrics market is growing rapidly. Increasing awareness about safety and security of patients, increasing application of biometrics devices in healthcare sector application and other data and growing healthcare infrastructure are driving the market growth for healthcare biometrics devices. North America is largest market for healthcare biometrics devices while Asia-Pacific is fastest growing market. Global healthcare biometrics market is expected to grow USD 5.6 billion at the CAGR of 22.3% by 2022

Study objectives of Healthcare Biometrics Market:
- To provide detailed analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the Healthcare Biometrics market
- To provide insights about factors affecting the market growth
- To analyze the Healthcare Biometrics market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific, and Middle East & Africa.
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by technology, by application, by end user, and its sub-segments.
- To provide overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global Healthcare Biometrics market.
Healthcare Biometrics market by End User:

Segments:
Healthcare Biometrics market has been segmented on the basis of technology which comprises of face recognition, fingerprint recognition, vein recognition, behavioral recognition, iris recognition, palm geometry recognition and others. On the basis of application, the market is segmented into patient identification, patient monitoring, medical record management, data security, and others. On the basis of end user, the market is segmented into Hospitals, research laboratories, healthcare institutes, and others.

Regional Analysis of Healthcare Biometrics Market:
Considering the global scenario of the market, North America is believed to be the largest market for Healthcare Biometrics. Moreover, the European market is also growing continuously and expected to maintain its growth in near future. On the other hand, Asia-Pacific market is expected to grow at the fastest pace in the Healthcare Biometrics during the forecasted period. Middle East & Africa region are likely to have a limited but steady growth in the market.

Key Players for Healthcare Biometrics Market:

Intended Audience:
- Healthcare Biometrics equipment manufacturers
- Healthcare Biometrics equipment suppliers
- Contract Research Organizations (CROs)
- Research and Development (R&D) Companies
- Government Research Laboratories
- Independent Research Laboratories
- Government and Independent Regulatory Authorities
- Market Research and Consulting Service Providers
- Academic Institutes and Universities

Contents:

- Report Prologue
- Introduction
  - Definition
  - Scope of the Study
  - Research Objective
  - Assumptions
  - Limitations
  - Market Structure
- Market Segmentation
- Key Players for Healthcare Biometrics Market
- Intended Audience

3.1 Research Process

3.2 Primary Research

3.3 Secondary Research

3.4 Market Size Estimation

3.5 Forecast Model

4.1 Drivers

4.2 Restraints

4.3 Opportunities

4.4 Mega Trends

4.5 Macroeconomic Indicators

5.1 Value Chain Analysis

5.2 PORTERS Five Forces

5.3 Demand & Supply: Gap Analysis

5.4 Pricing Analysis

5.5 Investment Opportunity Analysis

5.6 Merger and Acquisition Landscape

5.7 Market trends

5.7.1 Market trends

5.7.2 Technological trends

5.7.3 Insurance & Regulations

5.7.4 Others

5.8 Healthcare Biometrics Market by Technology

5.9 Healthcare Biometrics Market by End User

5.10 Healthcare Biometrics Market by Application

5.11 Merger and Acquisition Landscape

6. Healthcare Biometrics Market by Technology

7. Healthcare Biometrics Market by End User

8. Healthcare Biometrics Market by Application

9.1 Introduction

9.2 America

9.2.1 North America

9.2.1.1 The U.S.

9.2.1.2 Canada

9.2.2 South America

9.2.3 Europe

9.2.3.1 Western Europe

9.2.3.1.1 Germany

9.2.3.1.2 France

9.2.3.1.3 Italy

9.2.3.1.4 Spain

9.2.3.1.5 U.K.

9.2.3.1.6 Rest of Western Europe

9.2.3.2 Eastern Europe

9.2.4 Asia

9.2.4.1 China

9.2.4.2 India

9.2.4.3 Japan

9.2.4.4 South Korea

9.2.4.5 Rest of Asia

9.2.5 Pacific

9.2.6 Middle East & Africa
