This is due to the rising demand of energy, and the ability to rent the equipment rather than buying the equipment. The development in technologies have enabled the use of oilfield rental equipment due to which there has been increase in utilization of non-conventional oil and gas field.

North America is expected to account for the largest market share during the forecast period.

Study Objectives of Oilfield equipment rental services Market

- To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the global oilfield equipment rental services Market
- To provide insights about factors affecting the market growth
- To analyse the global oilfield equipment rental services Market based on various tools such as Supply Chain Analysis, and Porter’s Five Force Analysis
- To provide historical and forecast revenue of the market segments and sub-segments with respect to regions and their respective key countries
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by drilling equipment, by pressure & flow control equipment, and by region
- To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global oilfield equipment rental services market

Key Players

The key players of global oilfield equipment rental services market are Halliburton Co. (U.S.), Oil States International Inc. (U.S.), Schlumberger Ltd (U.S.), Superior Energy Services Inc. (U.S.), and Weatherford International Ltd. (Switzerland), Baker Hughes (U.S.), National Oilwell Varco (U.S.), Cameron International Inc. (U.S.), Transocean Ltd. (Switzerland), B&B Oilfield Equipment Corp (U.S.).

Intended Audience

- Oilfield equipment rental services manufacturers
- Distributer & Supplier companies
- End Users
- consultants and Investment bankers
- Government as well as Independent Regulatory Authorities

Product Analysis

- Product matrix which gives a detailed comparison of the market for different recycled product types

Additional Information

- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

Geographic Analysis

- Geographical analysis across 15 countries

Company Information

- Profiling of 10 key market players
- In-depth analysis including SWOT analysis, and strategy information of related to report title
- Competitive landscape including emerging trends adopted by major companies
The report for Oilfield Equipment Rental Services Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
