Global Monosodium Glutamate Market Information-by Application (Additives, Flavor Enhancers, Acidity regulators, Preservatives, and Others), by End User (Food Processing Industry, Cosmetic Industry, Pharmaceutical Industry, Animal Feed, and Others) and by Region - Forecast till 2022

Synopsis of Monosodium glutamate Market

The Global Monosodium Glutamate is expected to witness a significant growth of USD ~6,200 million by 2022 with CAGR of ~4.9% between 2016 and 2022.

Monosodium glutamate, which is an amino acid with the linear formula C5H8NNaO4 • H2O is an important industrial chemical to enhance flavor of foods monosodium glutamate commonly used in fast foods. Although MSG is tasteless by itself, it is a flavor enhancer that can be used to improve the taste of meat, fish, fowl, vegetables, and soup. It is said to provide a unique flavor that is neither bitter, sour, sweet, nor salty. It is highly used by the food & beverage industry in frozen, canned, and dried foods. It has also been used, with sugar, to change the flavor of bitter drugs.

Monosodium glutamate has found in various applications such as additives, flavor enhancers, acidity regulators, preservatives, and others. Increasing in demand of food industries is likely to drive the monosodium glutamate market growth. The growing food industries and animal feed industry on account of developing domestic as well as commercial market particularly in Asia-Pacific and Middle East has boosted the global monosodium glutamate market over the forecasted period.

In addition monosodium glutamate has undoubtedly been the controversial focal point of a decades it causes health care issues such as seizures, migraines, chest pains, and brain lesions this can be hamper global monosodium glutamate market. The key players of monosodium glutamate are planning to provide natural alternatives foods.

Global Monosodium glutamate Market (2016-2022) (USD Million)
Regional Analysis

Asia Pacific is the largest market of monosodium glutamate due to demand in various applications such as additives, flavor enhancers in China region followed by Japan. Increasing demand for fast food in the Indian, Taiwan, and South Korea has made Asia Pacific largest consumer of the global monosodium glutamate market followed by increasing in the consumption of monosodium glutamate market in North America region. The third largest market of monosodium glutamate is Europe. Latin America and Middle East also witnessed in growth of monosodium glutamate market due to various application such as additives, flavor enhancers, acidity regulators, preservatives, and others.

Segmentation

The global monosodium glutamate market is majorly segmented on the basis of application, end users and region. Based on application of monosodium glutamate the market is segmented into additives, flavor enhancers, acidity regulators, preservatives, and others. Based on end user the market segmented into food processing industry, cosmetic industry, pharmaceutical industry, animal feed, and others and based on region market is segmented into North America, Europe, APAC, Latin America, Middle East & Africa.

Key Players

Key players of the global monosodium glutamate market are Fufeng Group (China), AJINOMOTO Co.Inc. (Japan), Vedan International (Holdings) Limited. (Hong Kong), Ningxia Eppen Biotech Co.(China), KYOWA HAKKO BIO CO.LTD. (Japan), Shandong Linghua MSG Co., Ltd (China), Shandong Qilu Biotechnology Group (China), Shandong Shenghua Group (China), Jianyang Wuyi MSG Co. Ltd. (China)and others.

Geographic Analysis

The report covers brief analysis of geographical region such as:

North America
- US
- Canada

Europe
- Germany
- France
- Italy
- Netherlands
- K.
- Rest of Europe

APAC
- China
- India
The report about **Global Monosodium Glutamate Market** by Market Research Future comprises of extensive primary research along with detail analysis of qualitative as well as quantitative aspects by various industry experts and key opinion leaders to gain a deeper insight of the market and industry performance. The report gives a clear picture of the current market scenario which includes past and estimated future market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report further provides detail information about strategies used by top key players in the industry. It also gives a broad study about different market segments and regions.

**Study Objectives of Monosodium Glutamate Market:**

- To provide detailed analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the Global Monosodium glutamate Market
- To understand the supply and demand dynamics including supply and consumption concentration mapping
- To provide region level market analysis and future outlook for North America, Europe, Asia, and Rest of the World (ROW) and their countries
- To provide competitor positioning of the market
- To provide company profiling of major players in the market along with their production and capacity
- To provide regional trade analysis
- To evaluate historical market trends, patents and technologies, and current government regulatory requirements that are relevant to the market

**Intended Audience**

- Monosodium glutamate manufacturers
- Traders and distributors of monosodium glutamate
- Production Process industries
- Potential investors
- Raw material suppliers
- Nationalized laboratory
