Global Insulator Market Information Report by Type (Ceramic, Glass and Composite), by Voltage (Low Voltage, Medium Voltage and High Voltage), by Application (Cables & Transmission lines, Transformers, Switchgears, Busbars, Surge Protection Services and others), by End User (Utilities, Industries, and Others) and by Region - Global Forecast To 2023

Market Scenario:

An Insulator is a device, which resists the transmission of energy from one medium to another. Insulators are predominantly used in electrical applications and transmission & distribution. The property of an electric insulator, which doesn’t allow the electric charge to flow through it, is called resistivity. The global insulator market is driven by the increasing need of reliable electric supply & subsequent investment in transmission & distribution network, grid expansion, and developing safe electrical infrastructure.

Insulators are widely accepted across the world in various industrial & commercial sector as a safety device owing to properties such as, they have very high resistivity, high dielectric strength, low thermal expansion and the tightly held valence electrons in the insulator material allows them to resist the electron flow through them. Also, compact design and low manufacturing cost makes it permeable for the installation in various utilities and industrial sector. The constant need for electricity and the worldwide growth in grid infrastructure, will aid in the growth of global insulator market over the forecast period. Fluctuation in material costs and R&D in modern insulator for new product development over conventional insulator, are expected to restrain the global Insulator market.

The Insulator Market is expected to grow at a CAGR of 6% during the forecast period.

Study Objectives of Global Insulator Market:

- To provide detailed analysis of the market structure along with forecast for the next five years of the various segments and sub-segments of the global insulator market
- To provide insights about factors affecting the market growth
- To analyze the global Insulator market based on various tools such as Supply Chain Analysis, and Porter’s Five Forces Analysis
- To provide historical and forecast revenue of the market segments and sub-segments with respect to regions and their respective key countries
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by material type, product, application and region
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Insulator market
Market Segmentation:

Global Insulator Market:

The global insulator market is driven by the need for reliable electric supply, maximum safety in transmission & distribution network, and also the investments into the replacement of matured electric grid structures with modern upgraded ones. The Asia-Pacific region is the leading market for insulators. The rapid industrialization, urbanization, and fast economic growth in countries such as India and China, will drive the market for insulators.

Key Players:

The key players of global insulator market are General Electric (U.S.), Siemens AG (Germany), Alstom S.A (France), Aditya Birla Nuvo Ltd. (India), Bharat Heavy Electricals Limited. (India), Toshiba Corporation (Japan), Hubbell Incorporated (U.S), Seves Group (Italy), Dalian Yilian Technology Co. Ltd. (China) and ELANTAS GmbH (Germany).

Intended Audience:

- Distributer & Supplier companies
- End Users
- Consultants and Investment bankers
- Government as well as Independent Regulatory Authorities

Product Analysis:

- Product matrix which gives a detailed comparison of the market for different recycled product types

Additional Information:

- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

Geographic Analysis:

- Geographical analysis across 15 countries

Company Information:

- Profiling of 10 key market players
- In-depth analysis including SWOT analysis, and strategy information of related to report title
- Competitive landscape including emerging trends adopted by major companies

The report for Global Insulator Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
Table of Contents
1 Executive Summary
2 Research Methodology
  2.1 Scope of the Study
    2.1.1 Definition
    2.1.2 Research Objective
    2.1.3 Assumptions
    2.1.4 Limitations
  2.2 Research Process
    2.2.1 Primary Research
    2.2.2 Secondary Research
  2.3 Market size Estimation
  2.4 Forecast Model
3 Market Dynamics
  3.1 Market Drivers
  3.2 Market Inhibitors
  3.3 Supply/Value Chain Analysis
  3.4 Porter’s Five Forces Analysis
4 Global Insulator Market, By Type
  4.1 Introduction
  4.2 Ceramic
  4.3 Glass
  4.4 Composite
5 Global Insulator Market, By Voltage
  5.1 Introduction
  5.2 Low voltage
  5.3 Medium voltage
  5.4 High voltage
6 Global Insulator Market, By Application
  6.1 Introduction
  6.2 Cables & Transmission lines
  6.3 Transformers
  6.4 Switchgears
  6.5 Busbars
  6.6 Surge protection services
  6.7 Others
7 Global Insulator Market, By End User
  7.1 Introduction
  7.2 Utilities
  7.3 Industries
  7.4 Others
8 Regional Market Analysis
  8.1 Introduction
  8.2 North America
    8.2.1 U.S.
    8.2.2 Canada
  8.3 Europe
    8.3.1 U.K
8.3.2 France
8.3.3 Germany
8.3.4 Spain
8.3.5 Rest of Europe
8.4 Asia-Pacific
8.4.1 China
8.4.2 Japan
8.4.3 India
8.4.4 Rest of Asia-Pacific
8.5 Rest of the World

9 Competitive Analysis
9.1 Introduction
9.2 Competitive Scenario
9.2.1 Market Share Analysis
9.2.2 Market Development Analysis
9.2.3 Application/Service Benchmarking
9.3 General Electric (U.S.)
9.3.1 Overview
9.3.2 Insulator Type/Service Offering
9.3.3 Strategy
9.4 Siemens AG (Germany)
9.4.1 Overview
9.4.2 Insulator Type/Service Offering
9.4.3 Strategy
9.5 ELANTAS GmbH (Germany)
9.5.1 Overview
9.5.2 Insulator Type/Service Offering
9.5.3 Strategy
9.6 Alstom S.A. (France)
9.6.1 Overview
9.6.2 Insulator Type/Service Offering
9.6.3 Strategy
9.7 Aditya Birla Nuvo Ltd. (India)
9.7.1 Overview
9.7.2 Insulator Type/Service Offering
9.7.3 Strategy
9.8 Bharat Heavy Electricals Limited. (India)
9.9.1 Overview
9.9.2 Insulator Type/Service Offering
9.9.3 Strategy
9.9 Toshiba Corporation (Japan)
9.9.1 Overview
9.9.2 Insulator Type/Service Offering
9.9.3 Strategy
9.10 Hubbell Incorporated (U.S)
9.10.1 Overview
9.10.2 Insulator Type/Service Offering
9.10.3 Strategy
9.11 Seves Group (Italy)
9.11.1 Overview
9.11.2 Insulator Type/Service Offering
9.11.3 Strategy

9.12 Dalian Yilian APPLICATION Co.,Ltd. (China)
9.12.1 Overview
9.12.2 Insulator Type/Service Offering
9.12.3 Strategy
