Ureteral Obstruction Market Share, Growth And Trends Analysis By Type (Acute, Chronic) By Diagnosis (Ultrasound, Bladder Catheterization, Others) By Treatment (Surgery, Drugs) By Equipment (Devices, Consumables, Others) By End Users - Global Forecast Till 2023

Market Synopsis of global Ureteral obstruction market:

Ureteral obstruction or urinary tract obstruction is a condition of blockage of urine through the urinary tract, which may be complete or partial. In ureteral obstruction the urine may refluxes backward into your kidneys. Ureteral obstruction is curable, but if not treated, can lead to loss of kidney function, sepsis and eventually death. Other severe consequences are kidney stones, and infection of the urinary tract. Mild symptoms generally in partial blockage are pain on one side, abnormal urine flow and frequent, acute stinging pain etc. Ureteral obstruction are caused by injuries such as a pelvic fracture, ureter, kidneys, bladder or colon cancers, kidney stones in ureter etc. Nervous system disorders in which nerves responsible for bladder control cease to function properly, also cause obstructive uropathy. Some drugs such as those used to control overactive bladder can also cause obstructive uropathy. Other causes are enlarged prostate.

The diagnosis of urinary tract obstruction are ultrasound, bladder catheterization, Computed Tomography (CT), Magnetic Resonance Imaging (MRI), voiding cystourethrography (VCUG), endoscopy, blood and urine tests etc. The market for ureteral obstruction is driven by factors such as congenital abnormalities, low demand flexibility of the treatment due to serious consequences of the defect, increasing penetration of healthcare etc. The market constraints are cost of the treatment, threat of infection and pain during surgery etc.

Considering all these factors, the market for ureteral obstruction is expected to reach $ 22.5 billion by the end of 2023, this market is projected to growing at a CAGR of ~ 8.5 % during 2017-2023.

Intended Audience
- Global Ureteral obstruction manufacturers & suppliers
- Research and development (R&D) companies
- Hospitals and clinics
- Academic institutes and universities

Segments:
The global ureteral obstruction market is segmented on the basis of type, diagnosis, treatment, equipment and end users. Based on type, the market has been segmented as acute and chronic. Based on diagnosis, the market has been segmented as ultrasound, bladder catheterization, Computed Tomography (CT), Magnetic Resonance Imaging (MRI), voiding cystourethrography (VCUG), pyelography, endoscopy, blood and urine tests and others. Based on the treatment, the market has been segmented as surgery (ureteral stent, nephrostomy, open laparoscopy, catheterization, robot-assisted laparoscopy, others) and drugs (antibiotics, pain killers, others). Based on the equipment, the market has been segmented as devices (catheters, stents, others) and consumables (diagnostic reagents, urinary sample collectors, others) and others. Based on the end users, the market has been segmented as hospitals and clinics, research, others.

Regional analysis
US accounts for the maximum market share due to greater use of medications and greater expenditure on healthcare. The faster market uptake of new technology and devices in the US is also an important driver of the market for global
ureteral obstruction. The presence of large device companies in the developed regions is also a major driver of the market. Europe is the second largest market due to large disposable income and rising awareness regarding the health hazards of this condition. Asia Pacific region is expected to have the most future potential and it is estimated to be led by China and India. The Middle East & Africa market is led by the gulf nations particularly Saudi Arabia and UAE. The regions of Africa are expected to witness a moderate growth due to poor economic and political conditions and poor healthcare penetration.

Key players of Global Ureteral Obstruction Market:

The report for Global Ureteral obstruction market by Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain a deeper insight of the market and industry performance. The report gives a clear picture of the current market scenario which includes past and estimated future market size with respect to value and volume, technological advancement, macro economical and governing factors in the market. The report provides detail information about and strategies used by top key players in the industry. The report also gives a broad study of the different market segments and regions.

Contents:

Table of contents
1. Introduction
   1.1 Definition
   1.2 scope of study
   1.2.1 Research Objective
   1.2.2 Assumptions & Limitations
   1.2.2.1 Assumptions
   1.2.2.2 Limitations
   1.3 Market Structure:
2. Research Methodology
   2.1 Research Process:
   2.2 Primary Research
   2.3 Secondary Research:
3. Market dynamics
   3.1 Drivers
   3.2 Restraints
   3.3 Opportunities
   3.4 Macroeconomic Indicators
4. Market factor analysis
   4.1 Porters Five Forces Model
   4.2 Bargaining Power Of Suppliers
   4.3 Bargaining Power Of Buyers
   4.4 Threat Of New Entrants
   4.5 Threat Of Substitutes
   4.6 Intensity Of Rivalry
5. Global Ureteral Obstruction Market, by Type
   5.1 Acute
   5.2 Chronic
6. Global Ureteral Obstruction Market, By Diagnosis
   6.1 Ultrasound
   6.2 Computed Tomography (CT)
   6.3 Magnetic Resonance Imaging (MRI)
   6.4 Voiding Cystourethrography (VCUG)
   6.5 Pyelography
6.6 Endoscopy
6.7 Blood and Urine Tests
6.8 Bladder Catheterization
6.9 Others

7. Global Ureteral Obstruction Market, By Treatment
7.1 Surgery
7.1.1 Ureteral Stent
7.1.2 Nephrostomy
7.1.3 Open Laparoscopy
7.1.4 Catheterization
7.1.5 Robot-Assisted Laparoscopy
7.1.6 Others
7.2 Drugs
7.2.1 Antibiotics
7.2.2 Pain Killers
7.2.3 Others
7.4 Others

8. Global Ureteral Obstruction Market, By Equipment
8.1 Devices
8.1.1 Catheters
8.1.2 Stents
8.1.3 Others
8.2 Consumables
8.2.1 Diagnostic Reagents
8.2.2 Urinary Sample Collectors
8.2.3 Others
8.3 Others

9. Global Ureteral Obstruction Market, By End Users
9.1 Hospitals and Clinics
9.2 Research
9.3 Home Care

10. Global Ureteral Obstruction Market, By Region
10.1 North America
10.1.1 Introduction
10.2 Europe
10.2.1 Introduction
10.3 Asia-Pacific
10.3.1 Introduction
10.4 Middle East & Africa
10.4.1 Introduction

11. Competitive landscape
11.1 Major Strategies Adopted By Market Players
11.1.1 Strategic Partnership
11.1.2 Merger & Acquisition

12. Company profile
12.1 C. R. Bard, Inc.
12.1.1 Overview
12.1.2 Product Overview
13. Conclusion

13.1 Key Findings

13.1.1 From CEO’s Viewpoint

13.1.2 Unmet Needs Of The Market

13.2 Key Companies To Watch

13.3 Prediction Of Ureteral Obstruction Treatment Industry

14. Appendix
