Description:

Global Safety Lancet Market Information, by Type (Push Button Safety Lancet, Pressure Activated Safety Lancet and Side Button Safety Lancet), by End User (Hospitals & Clinics, Diagnostic Centers and Pathology Laboratories, Home Diagnostics and Other End Users) - Forecast to 2023

Market Synopsis of Global Safety Lancet Market:

Market Scenario:
The medical device industry is a dynamic and vital component of the healthcare industry. Developments in the medical device industry are made to simplify the diagnosis, prevention and treatment of various diseases. Every component of this industry plays an important role in the market sizing. One of such device is safety lancet, which is capturing a huge market share due to its application. Safety lancet can be further divided into push button safety lancet, pressure activated safety lancet and side button safety lancet.

The global market of safety lancet is expected to reach USD 2,305.1 million in 2023 from USD 1,056.2 million in 2016 with a CAGR of 11.8% during the forecast period 2017-2023.

Global Safety Lancet Market, by End User, 2016 (%):

Intended Audience

- Safety lancet Manufacturers
- Lancet manufacturers
- Safety lancet Vendors
- Market Research and Consulting Service Providers
- Hospitals & Research Laboratories

Key Players for Global Safety Lancet Market:

Some of the key players in this market are: F. Hoffmann-La Roche AG, Becton, Dickinson and Company, Terumo Medical Corporation, Bayer AG, HTL-STREFA S.A., Sarstedt AG & Co., Improve Medical Technology Co. Ltd and others.

Segments:

Global Safety lancet Market has been segmented on the basis of types which comprises of push button safety lancet,
pressure activated safety lancet and side button safety lancet. On the basis of end user, it comprises of hospitals & clinics, diagnostic centers and pathology laboratories, home diagnostics and other end users.

Regional Analysis of Global Safety Lancet Market:
The global market for Safety lancet is growing steadily. The market for safety lancet is growing with the CAGR of 11.8% during the forecast period from 2017-2023. Blood sampling safety lancet are the most common devices used in hospitals, clinics, diagnostic centers and home monitoring. The global safety lancet market reached USD 2,305.1 million in 2023 from 1,056.2 million in 2016. Europe region captured the largest market globally and is expected to reach USD 1,032.7 million by 2023 due to the growing demand and need for safe blood glucose tests in hospitals, clinics, diagnostics centers etc. and the growth of insulin users.

The report for Global Safety lancet Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides detail information and strategies of the top key players in the industry. The report also gives a broad study of the different markets segments and regions.

TABLE OF CONTENTS

1 REPORT PROLOGUE

2 MARKET INTRODUCTION

2.1 Introduction
2.2 Scope of Study
2.3 Research Objective
2.4 Assumptions & Limitations
2.4.1 Assumptions
2.4.2 Limitations
2.5 Market Structure

3 RESEARCH METHODOLOGY

4 MARKET DYNAMICS

5 MARKET FACTOR ANALYSIS

6 GLOBAL SAFETY LANCET MARKET, BY TYPE

7 GLOBAL SAFETY LANCET MARKET, BY END USER

8 GLOBAL SAFETY LANCET MARKET, BY REGION

9 COMPETITIVE LANDSCAPE

10 COMPANY PROFILE
11 LIST OF TABLES

12 LIST OF FIGURES
