Global Laboratory Information Systems Market Research Report - Forecast to 2027

Description:

Global Laboratory Information Systems Market Research Report By Application (Clinical, Industrial, Drug Discovery) By Components (Software, Hardware, Services) By Delivery (Web-based, On-Premise) - Forecast to 2027

Market Synopsis of Laboratory Information Systems

Market Scenario
Globally the market for Laboratory Information Systems is increasing rapidly. Global LIS market is driven by eight major drivers such as need for advanced techniques, growth in molecular diagnostics, cloud computing, rising government initiatives and increasing demand for laboratory efficiency. Globally the market for urinalysis is expected to grow at the rate of X.X% CAGR from 2016 to 2027.

Study Objectives of Laboratory Information Systems

- To provide detailed analysis of the market structure along with forecast for the next 10 years of the various segments and sub-segments of the global Laboratory Information Systems market
- To provide insights about factors affecting the market growth
- To Analyze the Laboratory Information Systems market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by Application, Components, Delivery and its sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global Laboratory Information Systems market

Key Players
The key players that are involved in Global Laboratory Information Systems market are Cerner Corporation, Recent Developments, Eclipsys Corporation, LabVantage Solutions Inc, LabWare Inc, McKesson Corporation, Medical Information Technology Inc., Merge Healthcare Inc, STARLIMS
The global LIS market is expected to grow at a CAGR of 7.3% between 2016 and 2027, driven by growth from both developed and emerging markets. Clinical application will drive the majority of the growth in the global LIS market. Software accounts for the majority of the global LIS market in terms of components. North America and Europe together contributed more than 75% of the global total market size in 2014. Emerging markets such as China and India are expected to generate significant demand for LIS during 2016-2027.

Segments
Segmentation by Applications
Segmentation for Laboratory Information Systems market involves the following Applications such as Clinical LIS Market, Drug Discovery LIS Market, Industrial LIS Market.

Segmentation by Components
Segmentation for Laboratory Information Systems market involves the following Components such as Software in LIS Market, Hardware in LIS Market, Services in LIS Market.

Segmentation by Delivery
Segmentation for Laboratory Information Systems market involves the following Delivery such as Web-based LIS Market, On-premise based LIS Market, Cloud-based LIS Market.

Regional Analysis of Laboratory Information Systems
North America dominated the Global Laboratory Information Systems market with the largest market share, accounting for $XX million and is expected to grow over $XX billion by 2027. The European market for Laboratory Information Systems is expected to grow at XX% GAGR (2016-2027). Asia-Pacific is expected to grow at CAGR of XX% from $XX million in 2016 to $XX million by 2027.

Americas
· North America
· US
· Canada
· Latin America

Europe
· Western Europe
· Germany
· France
· Italy
· Spain
· U.K
· Rest of Western Europe
· Eastern Europe

Asia– Pacific
Asia
· China
· India
· Japan
· South Korea
· Rest of Asia

Pacific

The report for Laboratory Information Systems of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry.
performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

TABLE OF CONTENTS

1 REPORT PROLOGUE

2 GLOBAL LABORATORY INFORMATION SYSTEMS: INTRODUCTION

2.1 DEFINITION
2.2 SCOPE OF THE STUDY
2.2.1 RESEARCH OBJECTIVE
2.2.2 ASSUMPTIONS
2.2.3 LIMITATIONS
2.3 MARKET STRUCTURE
2.4 MARKET SEGMENTATION
2.4.1 MARKET SEGMENTATION ON THE BASIS OF SECURITY SOLUTIONS
2.4.2 MARKET SEGMENTATION ON THE BASIS OF SECURITY SERVICES

3 GLOBAL LABORATORY INFORMATION SYSTEMS: RESEARCH METHODOLOGY

4 GLOBAL LABORATORY INFORMATION SYSTEMS: MARKET DYNAMICS

5 GLOBAL LABORATORY INFORMATION SYSTEMS: MARKET FACTOR ANALYSIS

6 GLOBAL LABORATORY INFORMATION SYSTEMS: BY APPLICATIONS (US $ MILLION)

7 GLOBAL LABORATORY INFORMATION SYSTEMS: BY COMPONENT (US $ MILLION)

8 GLOBAL LABORATORY INFORMATION SYSTEMS: BY COMPONENT (US $ MILLION)

9 LABORATORY INFORMATION SYSTEMS, BY REGION (US $ MILLION)

10 GLOBAL LABORATORY INFORMATION SYSTEMS: COMPANY LANDSCAPE
